

PROJECT CHARTER	
Project Name	Math Blitz
Date Produced	October 15, 2021
Project Goals	The goal of this project is to create a working website that will provide questions and answers in a quiz game format to the user. All questions will be math related at an elementary school level.
Project Objectives	Create an easily navigate able website. Have a working database of questions. Create a working algorithm for asking questions and receiving answers.
Project Budget	[This section contains the funds available for the project.]
Project Sponsor	Dr. Timothy Maciag
Project Managers	Taishi Barth, Quinn Maloney, Adam Metz
Additional Key Project Stakeholders	
Elementary School Teachers - Target Customer	
Elementary School Students - Target Customer	
Overall Project Milestones	Dates
Create a working and navigate able webpage	TBD
Link the database to the rest of the project	TBD
Create interactive code that will respond to what the user is doing. Example – asking questions or providing questions when supposed to.	TBD
Overall Project Risks	
The database could not link properly to the website.	

JavaScript could not be powerful enough to run the website.
